

Official (ISC)² CISSP Review Seminar

Tactical Security's instructors are authorized by (ISC)² to provide CISSP review seminars. (ISC)² official course material offers the most complete, comprehensive and up-to-date CISSP review in the market. Covering the ten domains of the Common Body of Knowledge, this review course is designed to help you master concepts and topics tested on the CISSP exam and to show you how to use this information to secure your corporation.

This course includes official (ISC)² review seminar material, post seminar self-assessment, and evening take-home review questions.

Course Outline

- Domain 1 – Information Security and Risk Management
- Domain 2 – Access Control
- Domain 3 – Cryptography
- Domain 4 – Physical (Environmental) Security
- Domain 5 – Security Architecture and Design
- Domain 6 – Business continuity and Disaster Recovery Planning
- Domain 7 – Telecommunications and Network Security
- Domain 8 – Application Security
- Domain 9 – Operations Security
- Domain 10 – Legal, Regulations, Compliance, and Investigations

TSI also offers additional comprehensive evening review sessions. These relaxed evening sessions provide a brief overview of the day's material, a student question and answer session, and an instructor led exam testing practice and strategy session. Please contact us for more information on the evening review sessions.
